We appreciate you getting the script right!

Tallahassee, Crestview, Central, Northeast, and South Florida—worldwide – From research to healthcare, from classrooms to conferences, pharmacists take aim (academia, industry, military) and are at service to the masses. **Sunday, January 12th is National Pharmacist Day** and the FAMU CoPPS, IPH offers tribute to you individually and corporately.

Thanks **Debora L. Taylor**, EdD for sharing a collaborative snippet
